Melancholy Eyes is the debut album from The New Heaven Dieppe. The New Heaven Dieppe is all about connecting the different creative areas that everyone involved works with. It is a clothing line and a band that are collaborating together, to inspire and influence each other. Songwriter/musician Andy, clothing designer Mari and singer Lizette all contribute to the soundscapes and visuals of TNHD. The music is often described as a mix between Air and Kraftwerk. It is always based on improvisations and live takes, played on analogue synthesizers and equipment.

The self titled debut EP was released in 2008. The album Melancholy Eyes was released on the 24th of March this year.
